

Design R&D Euromobil and Roberto Gobbo

## Project

Boiserie system on an electrified aluminium vertical rail. The shelves coordinated with the finishes on the panel and Bank aluminium and glass shelf come without electrical wiring and can be moved as wished because the LED light is automatically powered when the shelf is in contact with the rail. The Bank shelf has three practical accessories: plate rack, bottle rack and drinking glass holder.

## Available finishes

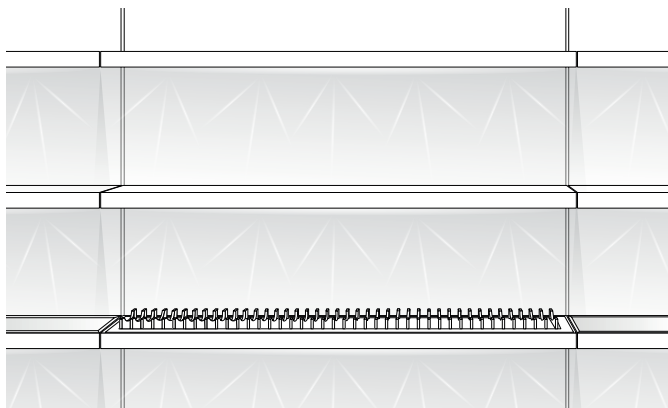

- TSS
- Ecolaccato
- Matt lacquer
- Super matt lacquer
- Glossy lacquer
- Texture oak, Eucalyptus, natural elm, Materia oak and walnut
- Plain Wood

I ripiani, spostabili a piacere lungo la cremagliera con passo di 4 cm, sono privi di cavo elettrico e la luce LED si alimenta automaticamente al contatto del ripiano con il profilo cremagliera elettrificato.

## Examples of modularity

Boiserie UP equipped with wooden shelves, aluminium “bank” shelves and wooden accessories
